Drivers are prohibited from doing a “burnout” or any other similar actions at any time. No weaving from side to side or “tire scrubbing” is allowed. The Starter will not allow any additional formation laps to allow drivers who lose their positions to regain their place. If a driver stops for any reason on the formation lap(s) they will not be allowed to try and start again until they have been passed by the entire field. The driver must remain at the rear of the field for the start of the race. Drivers are forbidden to use any route other than the official track configuration to regain a place.
COMPETITION REGULATIONS

Step 3
Karts may move up in their own row to vacant places ahead of them on the starting grid. Karts may not move to an adjacent row to fill a vacant space. Drivers who are out of position on the formation lap(s) or who are deemed to have caused a restart may be placed at the back of the grid. Drivers and crewmembers, which demonstrate a lack of compliance with race starting procedures, are subject to penalty. Penalties applied regarding violations of the starting procedure are not subject to protest or appeal.

7.6. Race Starts

Rolling Starts

All classes will use a rolling start for all heats, pre-finals and finals unless specified otherwise in these Regulations or Event Supplementary Regulations.

Rolling Start Procedure

On signal from the Starter, the drivers will leave the Mock-Grid and do one warm-up lap. Drivers who fail to maintain their official grid position during the warm up lap(s) are permitted to regain their grid position prior to arriving at the marked starting position on the track. Drivers who fail to do so must drop back to the rear of the field for the start of the race.

At the completion of the warm up lap(s), if the Starter is satisfied with the formation, the Green Flag will be shown, signaling the start of the race.

7.9. Stopping/Re-starting a Race

a) Re-starts

If the official determines that the start was improper after the Green Flag has been given, both the yellow and red flag will be waved when the karts next pass the start line, indicating a complete restart will be held. Yellow flags will be displayed at all corners with Marshals. Karts will resume their original grid positions. Drivers deemed to have caused the improper start may be penalized and placed in a revised position on the grid for the re-start.

b) Complete Re-start after a Red Flag

If less than 2 laps of the race has been completed, a new start will be given. The length of the new race will be the full original race distance. The original start will be deemed null and void.

c) Procedure to Stop a Race

Should it be necessary to stop a race due to an accident or on the grounds of safety or any other reason, the Red Flag will be shown by the Starter, at the start/finish line. All Corner Marshals will display a Yellow Flag to indicate caution and no passing. All drivers will stop racing immediately, raise one arm in the air and stop safely at the side of the track, or as directed by a Race Official. The kart may not be worked on by the driver or by the crew when it is stopped during a red flag situation, regardless of its stopped position. Drivers must stay with their karts unless directed otherwise by an official. Crewmembers may not be within 10ft. of a stopped kart during a red flag situation without approval of an official. If repairs to a kart are required on the basis of safety, in order to continue the re-start, these repairs may be authorized by the Race Official, but the kart must then start from the back of the grid or from the pits at the back of the field. Drivers may take refreshment during a red flag only after receiving permission from an Official.

d) Red-Flag Re-Starts

If a Red Flag is issued during a race, and the race is to be restarted, the driver(s) causing the red flag occurrence may be penalized. If the Race Official determines, by the information available, that the red flag incident was deliberately caused by 1 (or more) entrant(s), either to create a re-start or to inflict penalty to another entrant(s) involved, then the entrant(s) causing the red flag incident will be excluded. If more than 2 laps have been completed the re-start order will be according to positions on the previous complete lap in single file formation.
e) **Scoring a Stopped Race**

A race, regardless of status, that is stopped after 50% of the scheduled laps have been complete, for any reason, is considered complete. A race that is stopped by the Race Official before 50% of the scheduled laps have been completed, for any reason, can be declared complete. If the race is stopped by a red flag due to a crash, and is not re-started, the race order will be scored according to all positions on the previous complete lap. The driver(s) causing the red flag occurrence may be penalized. If the Race Official determine, by the information available, that the red flag incident was deliberately caused by 1 (or more) entrant(s), either to inflict penalty to another entrant(s) involved, then the entrant(s) causing the red flag incident will be excluded. If the race is stopped by a red flag for weather or other reason excepting crash, the race will be scored for points according to the positions on the previous complete lap.
